■ EASY □ MODERATE □ CHALLENGING

There are enough jewels in this kit to do 2 large diamonds with 2 smaller diamonds on the sides (as shown on the cover). If you plan to go all the way around a pumpkin, it will require more jewels.

This design has two pattern pages. Match line A to line B when carving larger pumpkins.

Pattern 1

Pattern 2

TIPS

1. Tape pattern to pumpkin, overlapping pattern pages where indicated.
2. To transfer pattern, use tip of drill to poke along design lines. Poke all black bold points in the center of the dark gray circles for jewel placement.
3. Sculpt along transferred design lines.
4. Twist drill all the way into the pumpkin, making a clean hole. Push jewels into holes. (If jewel is too loose or too tight, try selecting another, as they vary slightly in size).
